

INTRODUCTION

I am a Senior Principal at Econic Partners. I have more than 20 years of experience providing complex economic and econometric analysis on behalf of clients engaged in antitrust and intellectual property litigation. I have consulted on litigation matters involving price fixing, pharmaceutical “pay-for-delay,” territorial restraints, monopolization, market foreclosure, and patent infringement, primarily supporting experts and counsel in the context of class certification, liability and damages. I also have experience analyzing antitrust implications of mergers. My engagements have covered a wide range of industries, including pharmaceuticals, hospital and medical services, medical devices, construction products, intercollegiate athletics, computer memory and hardware devices, cathode ray tubes, telecommunications, food products, and fine tableware.
